

To Whom it may concern:

K-Love has been serving this community here in North Pole Alaska where I lived for the past 3 years and more. I have only been living here for 3 years and this station is all I listen to. K-Love has had a possitive effect on people here including myself. These harsh winters that can bring on depression to some people, they have a station that they can find encouragement and a staff that is there to talk to anyone that is in need. Between the music and the encouraging words spoken all through the day helps a lot of people here in Alaska and I know other places all around the United States. I ask that you rethink your descicion on the low fm power. Please don't take my K-Love away. I know there are others out there that feel the same way.
